

8 February 1955

MEMORANDUM FOR RECORD

SUBJECT: Soviet Mathematics

1. On 30 November [] called on me and expostulated at his inability to get what he thought to be a very constructive suggestion considered at the top level of OSI. 25X1
2. [] reported to me that such a problem existed in OSI and I recalled my conversation with [] I directed [] to make a study of the feasibility of the [] project without stirring up a commotion in OSI and give me his personal evaluation. This he did in a memorandum dated 14 January which I later submitted to Dr. Chadwell with direction to put it into effect unless he wished to advance strong objections to doing so, which he did by a memorandum dated 28 January. 25X1
3. Being substantially unqualified to make a personal evaluation of this project, but still believing that it has merit, I have asked [] to submit it to [] for his informal evaluation and report to me when I return from my trip. 25X1
